Rapidprint Automatic Time Stamps

Owl Timeclock's Rapidprint Automatic Time Stamp provides a simple method of recording time and date on office materials and verifying the receipt of items such as incoming mail, receipts, invoices, work orders and other pertinent business documents. Rapidprint is not only quick and efficient, it's easy to use. Simply insert a form or letter and it's instantly printed with the time and date. With Rapidprint, you'll always have an easy-to-read, accurate record of information on all your business materials.

Rapidprint's unique Adjusta-Print™ electronic circuitry allows it to provide consistent, clear imprints on all types of forms. The durable construction - a rugged steel housing, stainless steel paper plate and sturdy case lock to prevent tampering - ensures that Rapidprint remains the only time stamp solution you'll ever need for your business.

Owl Timeclock supports its customers through a network of regional offices and a central Customer Care Center.

Rapidprint Models

AR-E Series - Our most popular models, the AR-E Series stamps print anywhere across the top or bottom of a document (prints horizontal to the inserted edge of the document).

VAR-E Series - When an imprint must be located further than 1 5/8" from the top or bottom of a document the VAR-E series is needed. The stamps print anywhere along the left or right margin of a document (prints perpendicular to the inserted edge.)

Popular Options

Fixed Brass Die Plates

- Custom engraved to your specifications

Reverse Print

- For stamping the bottom of documents

Paper Guide

- For lateral imprint positioning

Digital Time Display

- LED clock optional on all models

Extended Trigger

- For positioning imprint less than 1 3/16" from paper edge

Ask your time equipment representative about the many other options available with Rapidprint time stamps, including removable die plates, engraved word roll, Julian date and others.
