Clock in the Box™

With Clock in the Box™, Managing Your Payroll is as Easy as Surfing the Web!

The name says it all: Clock in the Box™ from Owl Timeclock is a complete employee time-keeping solution, with software and hardware right in the clock - no software to install!

Clock in the Box™ gives payroll managers the freedom to view and edit employee time punches and prepare payroll via any Internet-connected computer¹. It supports universal connectivity to Ethernet, USB, or serial port communications, enabling any payroll manager with an Internet connection to access the data anytime, from anywhere in the world.

If you prefer, Clock in the Box™ can also connect directly to a computer. In both cases, there is no software to install, making access to your time clock and data truly as easy as surfing the web.

Innovative Solution for Growing Businesses

Clock in the Box™ is simple to use. Viewing data and editing reports is quick and intuitive. Set-up is plug-and-play², meaning you'll be collecting employee punch data and calculating time cards in a flash!

Clock in the Box™ comes with everything a small business needs to start collecting punch data and immediately saving time and money. For those companies requiring more advanced functionality and reporting, optional upgrades are available to:

- increase employee capacity to 250
- use Proximity badges for clocking in/out
- categorize and sort employees by department
- customize employee ID/PIN numbers
- automatically e-mail alerts to managers (e.g. employee approaching overtime, etc.)
- customize the software: custom pay rules; input non-worked hours (holidays, sick days, etc.); custom overtime rules, etc.

¹ Ethernet connection and additional configuration from your Internet Service Provider required.

² Ethernet/Network Connection is plug and play. Other connection types require communication driver wizard on CD.

Clock in the Box™

All-in-one Employee Time Clock

Clock in the Box™ includes three easy to use reports to give you complete visibility of your employees' time and attendance data: **Employee Time Card Report, Attendance Report, and Roster Report.**
